Examiner's Comments

1. The Information Disclosure Statement filed on June 3, 2004 have been considered and the signed copies are attached.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for allowance:

The applicant has claimed an albumin fusion protein consisting of a tissue inhibitor metalloproteinase-1 protein and albumin and the amendments to the claims on February 6, 2004 were sufficient to overcome the rejections of record. In addition, a search of commercial databases did not produce any prior art that suggests or teaches the claimed invention. Applicants have submitted the references in the attached PTO 1449 and upon review of the references, the claims continue to be patentable. Thus, the claimed invention is novel and nonobvious over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
